- On Jan 20th, we got an e-mail from Cammy Mills (Kitsap Co Public Works), which stated in part:

There is a pet waste station in the Manette neighborhood located at the top of the Hillclimb in a grassy area near the intersection of East 11th St and Trenton Ave. This station was provided by Kitsap County and the City of Bremerton and was maintained by a volunteer, Kathy Warcup. Kathy is no longer taking care of the station (and has not been for a while), but she let me know its maintenance was taken over by someone in the Manette Neighborhood Coalition.

I’m hoping this email address would be a good contact for that station, or if not, if you might know who is maintaining the station now.

On Jan 28, we got this e-mail

- It’s bag pick up time! When this program started, we were only able to offer Mutt Mitt sponsors a starting supply of bags. A few years ago, we started offering an annual allotment of 500 bags per station to help with the cost of maintaining a station. I know

that for some of you, 500 bags is not enough to get you through the year, but I hope it helps.

This year, you have a choice of picking up your bags at a pick up day (see below for times and locations), or picking them up at the [Public Works Annex](#) on the day of your choice.

Please complete the short survey to **RSVP by February 7th** to let me know how you'd like to get your bags. <https://www.surveymonkey.com/r/2022MuttMittbags> Once you've responded, you'll receive a follow up email within a few days confirming your choice.
